In a survey of Heads of Maths who use 10ticks:

99% would recommend the worksheets to a colleague in another school.

90% said that the worksheets have positively motivated their pupils.

82% said that the use of the worksheets had contributed to an **increase in the standard of teaching in their schools.**

Survey conducted by Manchester Metropolitan University Business School.

The most up to date maths resource

As we update every year, you can relax in the knowledge that we have your back, and all curriculum changes are covered. Not only that, we regularly add enrichment materials to get you and your pupils excited about maths.

Thank you so much for all your hard work 10ticks. The new worksheets are a fantastic addition to the collection with great ideas to support pupil learning. Once again thank you for your hard work and continued creative genius. KG

Amazing value

We keep our costs as low as we can to support you and your school. Everything is included for one price - you'll wonder how you ever lived without it.

Can I just say that the worksheets have proved to be worth every penny, especially when used with the less able children who do not appear to realise they are doing quite complex problems, within their ability range, when solving problems. VB

If you've not added 10ticks to your maths resources, you're missing out. Times Educational Supplement.

10TICKS Worksheet Annual Licence

A proven, successful and trusted resource

10ticks is a trusted, quality brand that has been in Australia since 2007. We produce work in 5 different countries, bringing the best working practice to you. You can rely on our quality.

Not a single maths teacher that I have met could be without it!!! JP

Increase teaching standards

This must-have collection is huge, with 8000+ worksheets and still growing! Our proven resource encourages teachers to find new ideas and to increase their range of maths pedagogy.

I use your worksheets daily and can vouch that they are very useful and do make a difference to my teaching. RC

Original and innovative

Come straight to the experts. Free of the constraints faced by traditional publishers, we spend time producing for you, giving you the best materials on the market and coming up with new, brilliantly conceived and innovative ideas, such as Calculated Colourings and Action Maths.

The 10ticks sheets cover everything I could possibly want, from simple introductions to complex extensions. They challenge pupils to apply their knowledge in different ways and have given me, as a teacher, new ways of looking at, introducing and reinforcing concepts. SA

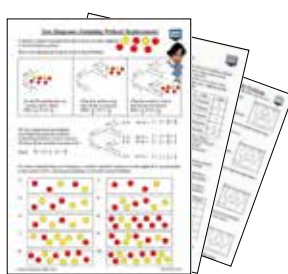

Time saving

Don't waste time searching for specific materials, when our complete, ready-made resource, crafted by experts, can save you hours, making 10ticks the intelligent choice.

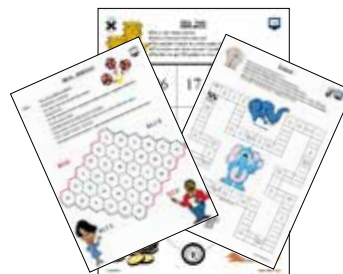

Already the time available I spend lesson planning has increased. These worksheets have stopped me having to search out enough challenging questions for all abilities. The result - better resources, more quality planning, more actively engaged students. LW

Caters for all types of learning

A huge variety of worksheet styles that stimulate, motivate and increase student attainment. Inspire all types of learners at all stages of learning. Our mission is to make the complex simple, fun and fascinating.

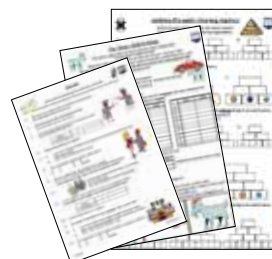

Consolidation/Problem solving

Games

Puzzles

Investigations

Calculated Colourings

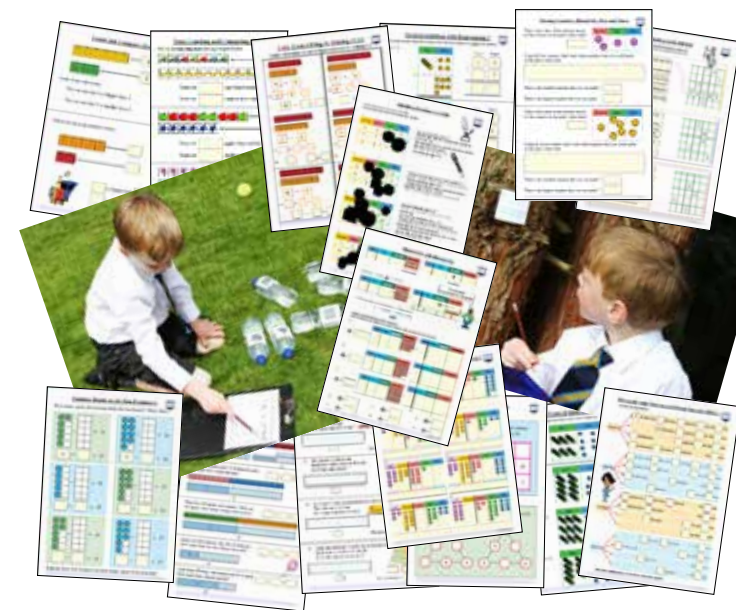

Action Maths

I am very impressed with what I have seen with the worksheets. They have everything ... I have found them to be challenging and provide opportunities for the student to show more depth of knowledge. AC

NEW Mastery Maths

Mastery maths is an engaging and accessible style of teaching mathematics, inspired by the approaches adopted in Singapore and Shanghai. Over 1400 pages available!

NEW Action Maths

- Two lessons for the price of one, maximising curriculum time
 - Fun, building a strong sense of community in the classroom
 - Physical activity can increase attention spans, reduce stress and help students learn
 - Lesson variety. Consolidate concepts and motivate pupils
 - Use in a one-to-one environment as an active learning lesson
- Go to www.10ticks.com.au/actionmaths

There is a wealth of different activities that are easy to differentiate for all the class. The kids love to do maths outside and Action Maths has got them laughing, counting, calculating and estimating. I shall definitely be incorporating lots of the ideas into my maths planning. OC

The new Mastery and Action maths pages primarily target the younger/lower-ability students in the Secondary phase.
